

Electrical Code

Summary of New and Revised materials in the Electrical Code

- The City of Los Angeles Electrical Code is based on the 2006 California Electrical Code, and the 2005 National Electrical Code (NEC).
- The City of Los Angeles Electrical Code changes consist of 5 administrative sections and two technical sections.
- The 2005 NEC changes consist of four new Articles, two relocated Articles, and 52 significant technical changes in Chapters 1 through 9 of the code.
- Some of these changes impacts installation of existing building's electrical systems or electrical room spaces where some of these requirements either mandate or necessitate use of a licensed or registered professional electrical engineer.
