

## **Citizen Participation**

### **1. Provide a summary of citizen comments.**

In addition, the performance report provided to citizens must identify the Federal funds made available for furthering the objectives of the Consolidated Plan. For each formula grant program, the grantee shall identify the total amount of funds available (including estimated program income), the total amount of funds committed during the reporting period, the total amount expended during the reporting period, and the geographic distribution and location of expenditures. Jurisdictions are encouraged to include maps in describing the geographic distribution and location of investment (including areas of minority concentration). The geographic distribution and expenditure requirement may also be satisfied by specifying the census tracts where expenditures were concentrated.

1) No citizen comments were received during the 15-day public comment period for the CAPER mandated by the Consolidated Plan regulations (June 15-30, 2006) and are included with this report. A public notice was published in the Los Angeles Daily News on June 15, 2006 advising the public of the availability of the draft CAPER report. A copy of the public notice is included with this document.

2) The draft and final 31st Year CAPER narrative and accompanying Grantee Performance Report (a statistical summary of all projects and activities expending funds for all program years) was made available for public inspection at the offices of the Los Angeles Housing Department (LAHD) and Community Development Department (CDD). Because of the sheer size and detail of the GPR only the narrative is posted on the City of Los Angeles, Community Development Department Web Site, at <http://www.ci.la.ca.us/cdd>. The CAPER report contains a table showing the total amount of funds available, the total amount of funds committed during the reporting period, the total amount expended, and the geographic distribution and location of expenditure.

The CAPER also includes maps that show the location of programs and project activities funded through the Action Plan for Program Year 2005-2006 and those that showed activity from prior year funding. This information is drawn from the HUD IDIS data base, and location data is plotted by the Department of City Planning.
