ROSENDAHL STATEMENT ON COURT DECISION ON PLAYA VISTA

Councilman Bill Rosendahl today issued the following statement regarding yesterday's decision by the California Second Appellate District Court regarding the Playa Vista project:

"Yesterday's court ruling regarding Phase One of Playa Vista is potentially significant. The court reversed the City of Los Angeles' approval of the methane mitigations for Phase One of the project. If that decision is upheld, it means the issue will return to the Los Angeles City Council.

"Questions of public safety are paramount to me. I will insist that City officials and the developer do everything in their power to insure we protect the health and safety of the residents of Playa Vista and the residents of neighboring communities.

"Over the next few days, I will be meeting with appropriate City staff to assess the full implications of the court decision, and I will be reviewing the City Council's options in this matter, including the possibility of requiring the developer to do a supplemental EIR.

"During my campaign for office, I was repeatedly told that Playa Vista was a "done deal," and there was nothing I could do to address concerns about traffic, the environment, sacred Indian burial grounds, or public health and safety. That assessment was wrong and I intend to work on all of those concerns to the satisfaction of my constituents."
