

Defeat Graffiti in Your Neighborhood!

Graffiti is a major problem in our neighborhoods at this time. The best way to combat it is to have it cleaned up as soon as you notice it. Below are some resources for you to assist in cleaning up these eyesores in our communities.

If you have graffiti in your neighborhood, and you would like it cleaned up, there are two ways to report it. You can call the **West Valley Alliance** directly at **(818) 885-8885**, or you can call **3-1-1**, and the operator will pass it on to have it cleaned up.

We appreciate your help in making our neighborhoods a cleaner, nicer place to live and work by making these phone calls, and by calling when you see people creating graffiti in our streets. Together we can combat this pervasive problem.
